PROFESSIONAL SUMMARY

Angular Developer with **6+ years** of experience building scalable, high-performance web applications using **Angular (v10+), TypeScript, and RxJS**. Proven track record in delivering responsive, production-grade solutions across **Healthcare and E-commerce** domains, with strong expertise in **REST API integration, PWA, and SSR (Angular Universal)**.

Skilled in optimizing application performance, implementing robust testing strategies, and contributing to CI/CD pipelines in Agile environments. Leverages AI-assisted development tools like **GitHub Copilot and prompt engineering** to accelerate development, streamline debugging, and enhance code quality and delivery efficiency.

CORE TECHNICAL SKILLS

Frontend & Frameworks

Angular (10–19), TypeScript, JavaScript (ES6+), RxJS, HTML5, CSS3, Micro frontend architecture

Testing & Quality

Karma, Jasmine, Playwright (E2E), Unit Testing, Regression Testing

State Management & Architecture

Basics of NgRx, Component Architecture, Lazy Loading, Interceptors, Guards, SSR (Angular Universal), PWA Development

DevOps & Tools

GitHub, TFS, Jenkins, Angular CLI, Jira, CI/CD Pipelines, GitHub Copilot

Backend & Integrations

RESTful APIs, JSON, i18n, SQL (basic understanding)

PROFESSIONAL EXPERIENCE

Associate Professional Product Developer

DH Healthcare Software Pvt Ltd | 2022 – Present

Project: Lorenzo Hospital Information System (Lorenzo HIS)

Technologies: Angular 19, TypeScript, RxJS, CSS, Kendo UI, TFS, Micro frontend architecture, GitHub copilot

Key Contributions:

- Developed and enhanced modules for **Lorenzo HIS**, a large-scale hospital information system used across the UK.
 - Built responsive and accessible UI screens for multiple user roles including doctors, nurses, and administrators.
 - Improved application performance using **lazy loading, optimized API handling, and change-detection strategies**.
 - Used GitHub Copilot to generate boilerplate code and reduce development time by ~30%.
 - Applied prompt engineering techniques to troubleshoot bugs and improve code efficiency.
 - Ensured high-quality code through **unit testing (Karma) and E2E testing (Playwright)**.
 - Worked within Agile/Scrum teams and participated in sprint planning, daily standups, retrospectives, and code reviews.
 - Collaborated with BA, QA, and DevOps teams to ensure on-time and high-quality releases.
 - Mentored junior developers, enabling faster issue resolution and improved team productivity.
-

Angular Developer

Ebrain Technologies | 2019 – 2022

Project: E Queue – Ecommerce platform for organic products

Technologies: Angular, PWA, SSR (Angular Universal), HTML5, CSS3, REST APIs

Key Contributions:

- Designed, developed, and tested **reusable Angular components** to support scalable UI architecture.
 - Built **PWA features** enabling offline support and mobile-friendly user experience.
 - Implemented **SSR with Angular Universal**, improving SEO and page load performance.
 - Integrated REST APIs for product listings, multi-language (i18n) support, and dynamic CRUD modules.
 - Ensured cross-browser and mobile responsiveness across major platforms.
 - Participated in Agile sprints, reviews, and testing cycles to deliver stable increments.
-

EDUCATION

Bachelor of Engineering – Electronics & Communication Engineering (ECE)

RVS College of Engineering & Technology, Anna University

2011 – 2015 | Score: 77%

PROFESSIONAL STRENGTHS

- Strong problem-solving and debugging skills
- Fast learner, adaptable to new tools and technologies
- Excellent communication and teamwork abilities
- Focused on code quality, performance, and maintainability
